Re: Warrenton Historic District Additional Documentation/Boundary Increase/Boundary Decrease

Mr. Davie:

hmwPreservation is delighted to submit this proposal for the preparation of Additional Documentation as well as a Boundary Increase/Decrease for the 1976 Warrenton National Register Historic District.

With over twelve years of experience in architectural survey and the preparation of National Register nominations, as well as specific experience with large and complex districts as well as with nominations that include the three components of Additional Documentation, Boundary Increase, and Boundary Decrease within a single document, I am uniquely suited to complete the necessary documentation for the Warrenton Historic District.

This project is particularly appealing to me because I have recently completed a very similar project in Oxford, North Carolina. Like the Warrenton Historic District, the Oxford Historic District, completed in 1988, had a simple list of addresses in lieu of a full inventory, and an arbitrary end to the Period of Significance, set at fifty years from the listing of the district. The project included creating a full inventory list, expanding the boundary to include an additional 260 resources (for a total of 468 resources), reducing the boundary to remove demolished resources, and providing twentieth century historic and architectural context for both the original district and the twelve expansion areas. The preparation of this long and complex document has made me very familiar with the specific requirements of large districts and multi-part nominations.

The identification, documentation, and preservation of historic resources is a passion of hmwPreservation and this project has my full attention and sincere interest.

Sincerely,

Heather M. Slane

WARRENTON HISTORIC DISTRICT
ADDITIONAL DOCUMENTATION, BOUNDARY INCREASE,
AND BOUNDARY DECREASE FOR THE
NATIONAL REGISTER OF HISTORIC PLACES

Heather Wagner Slane (hmwPreservation) is pleased to present a proposal for the completion of Additional Documentation for the National Register nomination for the 1976 Warrenton Historic District in Warrenton, North Carolina. The project will also include a Boundary Increase and Boundary Decrease for the district. This proposal presents the qualifications of the consultant and a description of the methodology. The consultant will coordinate the nomination with the Town of Warrenton and the North Carolina State Historic Preservation Office. The consultant will submit digital copies of the draft nomination to the client as well as digital copies of the survey photos and database, National Register photos, maps, and other materials. Paper copies of survey files and photos, as well as any additional research materials, will be provided to the North Carolina State Historic Preservation Office.

CONSULTANT QUALIFICATIONS:

Heather M. Slane has been working with National Register, Survey, and Rehabilitation Tax Credit projects in North Carolina since 2005. Heather has a positive working relationship with the NC-HPO that begun during her time as a graduate student at UNC-Greensboro and has subsequently grown over the past fifteen years. Their collaboration has resulted in six surveys and over twenty-five successful National Register nominations in North Carolina, including more than sixteen historic districts. Survey and National Register work throughout the state has given Heather experience documenting a wide variety of resources types from the late nineteenth through the late twentieth centuries, including the documentation of residential, commercial, institutional, and industrial resources.

Previous nominations for Additional Documentation and Boundary Increases to the National Register of Historic Places have given her extensive experience with coordinating multi-part nominations. These projects have also given her experience resolving missing and/or incomplete survey data; updating existing written descriptions; preparing district maps; and creating contexts for mid-twentieth century development and architectural resources. She has experience documenting large and complicated districts, including those with multiple resource types and lengthy periods of significance.

Cheri LaFlamme Szcodronski holds a Bachelor's degree in Biology-Ecology from Clarion University of Pennsylvania and a Master's degree in Public History-Historic Preservation from Middle Tennessee State University. Cheri has a strong background in historical and genealogical research, cultural landscapes, and preservation planning, and has completed a variety of projects across North Carolina, Tennessee, and northern Alabama. She was a graduate research assistant at the MTSU Center for Historic Preservation and has authored or co-authored individual and multiple property nominations to the National Register of Historic Places. Cheri augments Heather's background in architecture and design with her research-based, interdisciplinary experience.

The project will be led by Heather M. Slane with survey and research assistance by Cheri LaFlamme Szcodronski. Heather and Cheri have collaborated on a number of National Register and survey projects, including the recently completed Oxford Historic District Additional Documentation-Boundary Increase-Boundary Decrease and the Winton Historic District (both under NRAC review); and the Kinston Commercial Historic District Additional Documentation-Boundary Increase-Boundary Decrease and the Enfield Historic District (both currently under HPO review). Both Heather and Cheri meet the Professional Qualifications Standards set by the Secretary of the Interior and are listed on the roster of National Register Consultants with the NC-HPO. The resumes of both consultants are attached.

& HISTORIC TAX CREDIT PROJECTS, VISIT WWW.HMWPRESERVATION.COM**

METHODOLOGY:

The preparation of the Warrenton Historic District National Register Additional Documentation will be completed in six main stages: Initial Data Collection, Field Work, File Preparation, Contextual Development, Report Preparation, and Revisions.

Initial Data Collection will include the gathering of GIS maps and parcel data, HPO database and survey materials, city and county histories, and other available historic and genealogical sources related to the town's development. This initial collection of documents will serve to develop the historic context for the district. A base map with parcels and building footprints should be provided to the consultant in digital form for the completion of the necessary maps for the updated National Register nomination.

Field Work will include a full architectural survey of the twenty-eight properties within the Hazelwood subdivision. The survey will include sketches and notes on architectural details and condition of each structure. Additional digital photographs will be taken of streetscapes as well as buildings, structures, and sites within the boundary as needed.

File Preparation will include the creation/update of digital survey files for all properties within the district boundary. It will also include the preparation of written descriptions for all newly surveyed buildings and the editing, as necessary, of descriptions surveyed in 2019, which together will serve as the Section 7 inventory list for the completed Additional Documentation and Boundary Increase. Digital survey photos and survey file envelopes will be labeled according to the NC-Historic Preservation Office guidelines.

Contextual Development will include the preparation of a written history and historic significance for the district based on information in existing survey files, sources collected in the Data Collection phase, and interviews with residents. Additional historic and archival research will be completed as necessary to provide a thorough twentieth-century history and context for the district. Additionally, an architectural context will be drafted to cover the major twentieth-century architectural styles represented in the district.

Report Preparation includes the preparation of the National Register application form, a full inventory list of all properties within the district boundaries, a written history and significance of the district, bibliography, and boundary justification. All text, database files and survey photographs, survey and National Register maps will be provided in digital format to the client and in digital and paper format to the SHPO. National Register photos will be submitted digitally for printing after the initial review by the SHPO.

Revisions and corrections to the nomination will take place according to the review schedule of the NC-SHPO.

COSTS/SCHEDULE:

The cost proposal on the following page includes both the Additional Documentation and the Boundary Increase. Line items that are specific to the Boundary Increase are italicized and a second total, without a Boundary Increase, is listed at the bottom. The majority of the nomination preparation that deals with the context and development of Warrenton (including data collection, contextual development, report preparation, and revisions) is the same cost whether applied to the existing district alone or to the district with a boundary increase. Only the fieldwork, inventory preparation, and map preparation have additional costs associated with the Boundary Increase.

It should be noted that preparing a second, separate nomination for a Boundary Increase would include the italicized costs, as well as additional costs to adapt the contextual development to be focused solely on the Boundary Increase areas. It would also include costs for a second written report, revisions, and maps.
